1. Brief introduction

1.1 Methodology and definition

1.1.1 Credibility and statement of the report

1.1.2 Data analyses and annotation

1.1.3 Definition and abbreviation

1.2 Background

1.2.1 Definition of VAM

1.2.2 Application of VAM

1.2.3 Production process of VAM

1.3 Summary

1.3.1 Global VAM supply and demand

1.3.2 China VAM supply and demand

2. China VAM supply and demand during 2006-2010

2.1 Supply

2.1.1 Domestic production

2.1.2 Import

2.2 Demand

2.2.1 Domestic demand

2.2.2 Export

2.3 Supply VS demand

3. Analyses on China VAM market during 2008-2009

3.1. Market summary during 2008-2009

3.2. Review for market of 2008-2009

3.3. Factors for China VAM price trend

3.4. Market players' attitude

3.5. Feedstock markets

3.5.1 CRUDE OIL

3.5.2 METHANOL

3.5.3 Calcium Carbide

3.5.4 Acetic acid

4. Forecast for China VAM market trend during 2009-2010

4.1 Market highlights

4.2 Driving factors for price trend

4.2.1 Economic environment

4.2.2 Feedstock markets (supply&demand/market features/price trend)

4.2.3 Supply

4.2.4 Downstream demand

4.3 Supply vs Demand

4.4 Suggestion for market trading

Appendix

1. Highlights in 2009

2. Import & Export data

3. Major market players (Methanol, Calcium Carbide, Acetic Acid VAM&downstream)

4. Expanded capacity for major upstream and downstream of VAM

5. China monthly prices on upstream and downstream of VAM for 2008-2009

6. Government policy
